

Mthimkhulu Joseph Kgaogelo

INFORMATION TECHNOLOGY GRADUATE, SOFTWARE DEVELOPMENT

kgaogelojoseph33@gmail.com, 3 chronos rd, Vereeniging, Gauteng, 1939, +27 62 784 0089, [Portfolio](https://ictpass2002kgao.github.io/Portfolio/) : <https://ictpass2002kgao.github.io/Portfolio/>], [LinkedIn](https://www.linkedin.com/in/kgaogelo-mthimkhulu-146a6a280/) : <https://www.linkedin.com/in/kgaogelo-mthimkhulu-146a6a280/>

Professional Summary

I am an Information Technology graduate holding an Advanced Diploma in Information Technology (NQF Level 7- Bachelor's Equivalent), with an analytical and numeric mindset, specializing in software development, application management, and system support. My background spans end-to-end product development, deploying applications across various cloud platforms, and maintaining system functionality to ensure seamless operations. I am adaptable, eager to learn, and ready to take charge of my professional growth in a public sector and technology-driven environment.

Projects

Independent Software Developer (Project)

DANKIE - The Complete Church Companion - [[Visit site here](https://dankiemobile.org.za/) : <https://dankiemobile.org.za/>]

06/2025 – Present - **Remote**

- **Drove** product development by designing an end-to-end mobile and web application to create innovative solutions for community engagement, event tracking, and a dedicated marketplace.
- **Developed** a secure Node.js backend integrating Pay stack to streamline financial management, automated monthly subscriptions, and automated balance sheet generation for administrative users.
- **Engineered** an innovative facial recognition system using Python to ensure secure tracking of congregation's data and automated document submission, actively supporting fraud and risk analysis.
- **Tech Stack:** Flutter, Firebase, Pay stack, Python, Node.js

Independent Software Developer (Project)

Live Certifier - [[Visit Portfolio](https://ictpass2002kgao.github.io/Portfolio/#services) : <https://ictpass2002kgao.github.io/Portfolio/#services>]

10/2024 – Present - **Remote**

- **Architected and developed** a secure web platform enabling South African citizens to digitally certify documents online.
- **Integrated** innovative facial recognition and ID verification features using Python to ensure strict, secure user authentication.
- **Built** a responsive frontend using React, JavaScript, and Bootstrap to deliver a seamless user experience.
- **Tech Stack:** HTML, CSS, React, Bootstrap, JavaScript, Python

Experience

IT Tutor

Vaal University of Technology

01/2023 – 12/2025 - Gauteng, Vanderbijlpark, South Africa

- **Facilitated** tutorials and assisted with lectures for first-year Software Development and second-year Business Analysis modules, bridging the gap between theoretical concepts and practical application.
- **Evaluated** student assessments and practical activities, providing constructive, timely feedback to improve technical competencies.
- **Monitored** learner attendance and academic performance using institutional databases to proactively identify and support at-risk students.
- **Collaborated** closely with academic teams to prepare lesson materials, maintain academic standards, and drive overall student engagement.

Education

Kgokodibeng High School, 2016 - 2021

Major: Science Stream

Vaal University of Technology, 2022 - 2024

Major: Development Software, Minor: Diploma in Information Technology

Vaal University of Technology, 2025 - 2025

Major: Development Software, Minor: Advanced Diploma in Information Technology

Skills & Abilities

- **Programming & Development**

- Flutter, Dart, JavaScript, Python, Java, PHP, HTML, CSS, Node.js, Django, React, Next.js

- **Databases**

- MySQL, PostgreSQL, SQLite, SQL, PL/SQL

- **Cloud, DevOps & Deployment**

- Firebase (Authentication, Hosting), Git, GitHub, GitHub Pages, Heroku, Vercel, Railway, Google Cloud Platform (GCP), AWS (EC2, S3, Lambda), Secret Manager

- **Tools & Frameworks**

- Bootstrap, Firebase, Git

- **Professional & Analytical Skills**

- Analytical and Numeric Mindset, Fraud and Risk Analysis, Customer Experience (UX), Product Development, Business Analysis, Project Management, Problem Solving, Communication,

Teamwork & Collaboration, Time Management, Adaptability & Continuous Learning, Creativity & Innovation, Attention to Detail, Leadership

- **Academic & Support Experience**

- Tutoring Students, Peer Support, Knowledge Sharing
