SOFTWARE DEVELOPER

kgaogeloseph33@gmail.com | Ga Mathipa, Burgersfort | +27 62 784 0089 | [Portfolio](#) | [LinkedIn](#)

Professional Summary

I am an Information Technology graduate with an Advanced Diploma in IT, seeking a Software Developer position. I have hands-on experience working on both front-end and back-end components of web and mobile applications, with a focus on building scalable, user-friendly, and efficient solutions. Highly motivated and adaptable, I thrive in collaborative environments, embrace new technologies quickly, and am committed to continuous learning while contributing effectively to the organization's digital initiatives.

Experience

Dankie App (Mobile app & Web app) | [Visit site here](#) 

Created a mobile and web application tailored for The Twelve Apostles Church in Trinity, focusing on improved member engagement via event updates, stream music and a marketplace for church products and monthly subscription for the pastors using node.js as backend. Key features include document submission and support for learners through university committees, facial recognition for secure tracking of learner data interactions, and automated balance sheet generation for pastors.

Tech stack | Flutter , Firebase, Paystack | Python | Node js

Live Certifier | [Visit Portfolio](#)

Developed a system enabling South African citizens to certify documents online, utilizing facial recognition and ID verification for secure authentication.

Tech stack | HTML | CSS | React | Bootstrap | Javascripts | Python

IT Tutor Vaal university of technology

01/2023 – 12/2025, Gauteng, Vanderbijlpark, South Africa

As an IT Tutor at Vaal University of Technology (VUT), I supported teaching and learning for first-Year Software Development and second-year Business Analysis modules. I facilitated tutorials, assisted with lectures, and helped learners understand both theoretical and practical concepts in line with module outcomes. I assisted in preparing lesson materials, assessments, and practical activities, and marked assessments while providing constructive feedback within required timelines. I tracked learner attendance and performance, identified at-risk students, and maintained accurate academic records using institutional systems. I worked closely with lecturers and academic teams to support academic standards, learner engagement, and overall student success
